

DELKIDZZ Play School & Day Care

Managed and run by Educationists

About us:

The School is managed and run by Ms Anuradha Roy and Ms Shruti Mehrotra, Educationists who have an extensive experience in Early Childhood Education with a niche of handling toddlers and young children. The entire routine of the child is being supported by trained and qualified teachers and gentle and caring support staff.

At **DELKIDZZ**, we provide your child with a safe, clean and healthy environment in which your child feels loved, valued and cherished. We also provide your child with a friendly ambience as well as a structured curriculum taught with lots of love and care by our well-trained staff.

Play is the child's window to the world and hence we have structured our entire curriculum on play. Toys are important teaching tools for kids and we at DELKIDZZ have done just that. Educational toys, manipulatives, blocks, puzzles and puppets form an important part of our curriculum.

From the very start, our focus has been on helping students improve learning and personality development. Our team is committed, caring and competent and who need to take care of these factors.

MasterMinds daycare

DELKIDZZ daycare is to offer a "home away from home" for children, i.e., to provide them with a safe, comfortable, stimulating, and caring environment that's customized to their needs. While care-giving is our primary objective, we are equally concerned about your children's personal, social, and emotional development.

Baby Care

Baby Care Center understands that every baby is special and comes with its own set of needs. Our staff members are at tune to your child's needs and ensure they feel secure and appreciated..

Our philosophy, the basis of which is respect for, and trust in the baby to be an initiator, an explorer, and a self learner. The philosophy also suggests that children should have time for uninterrupted play and the freedom to engage with other infants. While no two days will ever be the same. there are foundational practices and routines each day that will enrich a baby's experience

Our staff of careers and educators is trained to give individual attention to each child and support development and growth. A pediatric nurse is also available on call to care for each child's health and well-being.

Playgroup : Creators

Suitable for: Children between 2 -3 Years

Child development experts agree that children benefit most not only from a nurturing environment, but one that offers appropriate opportunities to develop their full potential. Our emphasis during the toddler stage is on building your child's independence and fostering the natural curiosity that toddlers possess which creates a long-lasting love of learning..

Nursery : Explorers

Suitable for: Children between 3 -4 Years

Quality education in the early years of preschool sets a firm foundation in the overall development of a child. The nursery programme provides a right array of activities to help children move towards achieving their early learning goals.

In Nursery, children are engaged in school readiness activities such as reading, writing, counting, number recognition and problem solving in a fun filled but purposeful manner. Children are encouraged to corroborate their learning through collaborative activities in the areas of dramatics, science and arts.

Kindergarten: Discoverers

Suitable for: Children between 4-5 Years

The transition from preschool to primary school is a crucial time of change for both children as well as their parents. In addition to age-appropriate activities in Kindergarten, which prepare a child for success in formal school; various other activities are conducted in the areas of language, numbers, general knowledge, music, art in a planned manner throughout the program.

Through these activities, children learn the alphabet and letter sounds, numbers and simple math and master early writing skills.

A great start for every child.....
